CARD OF THANKS
We wish to express our heartfelt thanks to the friends and relatives for their kind and generous contributions to the funeral of our dear friend, Mrs. B. L. Hutchins, who passed away on Friday, November 5, 1926. The services were held at the home of the deceased on Saturday, November 6, 1926, at 2 o'clock P. M. The funeral was attended by a large number of friends and relatives, and the services were most fitting and comforting. We are deeply indebted to all who attended and to those who contributed to the funeral expenses. We are also indebted to the Rev. Mr. J. H. Stone for his kind and comforting words. We are also indebted to the Rev. Mr. J. H. Stone for his kind and comforting words. We are also indebted to the Rev. Mr. J. H. Stone for his kind and comforting words.

FINE COON DOG
William Young's dog has figured again as a coon hunter when he rounded up three for a party of gun men comprising Tom Huston, Howard H. Potter, Elmer Hall, Robert Doherty, Percy Doughty and Bill Young. Hunter Doughty shot one, but two escaped for the dog to corner near Arthur Robbins' place. One coon put up a stiff fight. The dog had assistance from the crowd in the last round. The dog has the credit of taking thirty animals thus far this year and is earning his board. Before leaving the Young farm he was a tramp and his owner has never been located. Although a mongrel, inheriting hound and setter in blood, he sure has a good nose for coons and one of the real ones for that sport.

NIFTY RESCUE
There was as nifty a rescue on Paris Street as one might ask for. A horse hauled a well loaded pole's cart was standing at the junction of Beal and Paris Streets and it became frightened at passing cars presumably and bolted. One of the men on the cart was in the driver's seat and was unable to get out. A plowing one of "Henry's children," stopped immediately and jumped from the Ford and caught the horse as he played hide and seek with the telephone pole and it was a wonder he didn't make connections with the pole as his main idea seemed to be to escape the clutches of the officer.

When the churning is continued until the butter forms in large lumps, it is impossible to wash the butter. The milk will be in the butter injures the keeping qualities.

Tree Planting—Tide farm lands in New York are being converted from a liability into an asset.

The State Forest nurseries in the Spring of 1926 sent out 17,000 young trees, or enough to plant about 20,000 acres. The year's output promises to be about 23,000,000 trees.

More Exercise, Better Lambs—If lambs are to be born strong and vigorous, a moderate amount of exercise is necessary for the ewes during the winter.

This can be obtained by scattering their roughage over a field and allowing them to work back and forth over it while eating, or by feeding some of the roughage some distance away from their shelter. If winter pastures are used, no other arrangement for exercise is necessary.

Corn Weevils—Weevil loss to Southern corn has been conservatively placed at 10 per cent.

This loss can be prevented. The practice followed by some farmers of selling their corn in the fall or as soon as weevils are discovered merely to avoid weevil loss is a mistake.

Protest his corn from weevil attack, or kill the insects if already present, by thorough fumigation of the grain, in a tight room and with care.

Lesson for November 7

THE FALL OF JERICHO

LESSON TEXT—Josh. 6:1-20.
GOLDEN TEXT—This is the victory that overcometh the world, even our faith.
PRIMARY TOPIC—Joshua Leads His People to Victory.
JUNIOR TOPIC—The Victory of Jericho.
INTERMEDIATE AND SENIOR TOPIC—How God Helped Joshua.
YOUNG PEOPLE AND ADULT TOPIC—Overcoming by Faith.

Jericho was the key to the land of Canaan. A signal victory here would put the Israelites in control of the land. Failure here would mean irretrievable ruin.

1. Jericho Shut Up (vv. 1-5).
The Canaanites felt secure because Jericho was strongly fortified from the east. Approach to the city from the south was not thought of as the Jordan river was a barrier. The numerous crossing of the Jordan by the Israelites and their surrounding the city of Jericho greatly alarmed the people—"Therefore none went out and none came in."

2. God's promises to Joshua (v. 2).
"I have given you the land Jericho, and the king thereof, and the mighty men of valor." Because of this promise from the Lord their faith had a firm basis.

3. God's instructions (vv. 3-5).
"They were to encompass the city with seven priests bearing trumpets of rams' horns. The ark, a symbol of the Divine Presence, went before the people. They encompassed the city once a day for six days and on the seventh day they encompassed it seven times. When the last circuit was made the priests were to give a long blast of the trumpets and the people were to shout with a great shout and the walls of Jericho were to fall down."

4. The Obeyance of the People (vv. 6-10).
They advanced according to the directions of their leader, for they were going forth according to the command of the Lord. To the natural eye the means employed were very inadequate, even foolish. If they had looked at the inadequacy of the means in themselves, they no doubt would have faltered, but they believed that He who had given the orders would fight for them, Joshua and his people set out at once to obey the divine directions. The people marched around the city every day for six days. This, no doubt, was very trying to their faith. There was absolutely no connection between the means and the end. Perhaps as the days wore wearily away the whole affair appeared monotonous. Even at the end of the sixth day there was no change. Doubtless the people on the walls of the city used this unseemly behavior as an occasion of great merriment and ridicule. Even at the end of the sixth round on the seventh day there was no change. Yea, the seventh round brought no change until the very last moment. At the mighty shout, accompanied with the blowing of trumpets, the walls came tumbling down. This is the way of all works accomplished by faith. At the time when everything seems unavailing, faith holds on and wins the victory.

5. The Fall of Jericho (vv. 17-20).
At the end of the seventh day the seventh round having been made of the city, the long silence was broken with a shout. As the walls crumbled down, the Israelites clambered over them, slaying men, women and children. They were not to spare anything save the gold, silver, brass and iron which were to be saved for the treasury of the Lord. However, Rahab and her household were saved according to the promise of the spies. This wonderful deliverance was calculated to inspire the people with courage and enthusiasm. They could now see how God could fight for them and deliver them from their enemies. Also, it would strike terror in the hearts of the Canaanites. The blowing of the trumpets and shouting of that day with its great victory is typical of the greater day when larger victories shall be won by the Almighty for His people, and even greater consternation will be struck into the hearts of the enemies of God's people (I Thess. 4:16, 17).

6. Let us learn of this whole lesson that spiritual victories are won upon principles and by means which are not sufficient in themselves. According to human wisdom it is utter foolishness (I Cor. 1:17-29).

The Living Trees
Living trees are always shedding something in order to produce more.

The Bible Leads
Judge the Bible by its influence that it has had upon the lives of men and it wins first place with all other books trailing in the dust.

The Christian
A Christian, when he makes a good profession, should be sure to make his profession good.

On God's Side
Stand on God's side and He will stand by your side in times of need.

A CHANCE TO SAVE LIFE
Fires occur in the United States on an average of one every three minutes. More than half of the 15,000 annual human toll of fire is taken in the home. Why take chances with fire? Be careful!

ONE ECLIPSE NEXT YEAR
Maine Farmers' Almanac tells us there is to be a total eclipse of the sun. It will be of the moon, and will appear June 15, at about 2 o'clock in the morning.

There are five others, three of the sun and two of the moon, but invisible in this latitude.

The devil can cite Scripture for his purpose.—Shakespeare

THE PET RABBIT
Why not eat the pet rabbit as the pet hen? The Department of Agriculture advises the use of domestic rabbit meat because its investigations show that it is of exceptional food value and of delicious flavor. It says that properly fed rabbits with a diet consisting chiefly of oats, barley and alfalfa hay, produce a meat that tastes very much like chicken.

Why not use some of the windfall and speckled apples to make protein, which will be useful with fruits not ordinarily used for jelly? The U. S. Department of Agriculture will tell you how to make apple protein.

World's Fair

A Statement of the Receipts and Expenditures of the Fair for 1926 at North Waterford

Inasmuch as the members of the World's Fair Association have often been questioned as to the use of the funds collected from those attending the Fair, the following report, by the treasurer, R. B. Knight, showing receipts and expenditures for the year 1926 is being published for the information of the public:

From patrons and fairs	\$1,011.61
Expenditures:	
Improvements and repairs to Hall	\$186.38
Tickets and grounds	29.76
Rest of Grange Hall	50.00
Life Insurance	51.96
Labour, superintending hall	16.20
Tickets, grounds, stock	228.25
Labour, drawing, building	331.99
Premiums paid	866.76

Receipts less expenditures.....\$145.75
In explanation, the officers of the Association state that a favorable balance is much to be desired on a year when the weather is fine to take care of the deficit on years when one or both days are stormy. Furthermore, it is hoped that the Association will at some time be able to afford a building of its own for exhibition purposes.

WEST PARIS—TRAP CORNER

Friendly Class Entertained—E. B. Davis Took Trip to Canada.

Mrs. Fred W. Davis of Rumford has recently spent several days with Mrs. O. H. Bowker.

Mrs. A. K. Emery entertained the Friendly Class of the Universalist Church and several guests, Thursday afternoon. The party numbered 26. Decorations were in keeping with the Halloween season. Games and sociability were enjoyed and refreshments served.

Mr. and Mrs. Stephen Davis spent the week end with Walter Davis and wife at Bryant's Pond.

E. B. Davis was in Canada one day last week.

Inez Briggs is at home. Her school is closed, on account of measles has sold her horses.

Mrs. P. W. Treworgy and son, Audway, of Augusta, spent the week end at Parle Treworgy's.

One of the easiest ways of preparing egg-plant is to cut it in half lengthwise and bake it with bacon lard in swigs over the top.

National Grange Meeting

Great Grange Gathering Opens Nov. 10th in Portland and All New England Interested

Keen interest among thousands of Grange people in New England awaits the final word concerning the big coming event at Portland, when the National Grange assemblies there on the morning of Wednesday, November 10, for the 50th annual session; with the near approach of the date finding more New England people preparing to go to Portland than have ever assembled there towards any single event. There is every indication that the estimates made early in the season of an attendance of at least 15,000 Grange members at Portland, with a class to take the Seventh Degree of fully 10,000 candidates, will be completely realized.

During the last six weeks every State Grange in New England has held a series of special sixth degree meetings to fit their members for reception into the highest degree of the organization and a great outpouring of patrons has resulted. In Maine 4,712 sixth degree initiates are recorded for this series of meetings; almost 2900 in Massachusetts and proportionally large classes in all the other States. It is six years since a North Degree Grange opportunity was afforded in the New England district.

The program for the Portland session includes spending of the day on Wednesday, November 10, with business sessions that day and Thursday; conferring sixth degree in the new revised form Thursday night, November 11, and on Friday, November 12, with at least four classes, in the Strand Theatre, the hours of the same being 9 A. M., 12 M., 4 P. M., and 8 P. M., while a fifth class will be crowded into the afternoon if the number of candidates require it. Members of the Grange who have taken the Seventh Degree are assured of an opportunity to witness it at Portland as a large block of seats in the theatre will be reserved at each working of the degree for the Seventh Degree members. Saturday morning, the 13th, in the Portland Municipal Auditorium, occurs the annual convocation of the Assembly of Demeter, the highest ritualistic meeting of the organization and open only to Seventh Degree members.

Sunday all the Grange members will attend church in a body, memorial services in the afternoon and probably a big union church gathering in the evening, the Grange co-operating in the interests of law enforcement, good government and American citizenship. Four days of the second week devoted entirely to business sessions, closing Thursday night, November 18.

Governor Ralph O. Brewster of Maine will officially welcome the convention members, Secretary of Agriculture William H. Jardine will present an agricultural survey of the country and many other prominent leaders will address the convention at different times. Present indications are that the greater number of New England attendees will motor to that city, many communities making up bus parties; while as far as can be arranged the members in Vermont are to travel by train to Burlington and then proceed to Portland as a motor caravan. Universal rates of fare and a half will prevail on all railroads, under the certificate plan, and in addition to regular train service, and in some instances special trains will be made up to convey the crowds.

Tanlac Helps Entire Family

Mother of 3 Children Says Family Is in Better Health Than Ever Before. Claims Own Case Is Fully Cured.

"My oldest son" and myself were the invalids of the family," says Mrs. M. E. Guilbert, 81 Kingsley St., Springfield, Mass. "When I was 20 years old I developed rheumatism that never left me until I began taking Tanlac. After my last child was born I could not regain my strength. For weeks I could not do a thing. I did not leave the house. My arms and legs swelled and pained me. There wasn't a spot on my body that did not ache. My stomach was always sour and burned like fire. We spent a lot of money in search of relief when a friend recommended Tanlac."

"I began to gain strength. I gained 6 pounds and color returned to my cheeks. Rheumatism vanished. Now I feel 100% better than ever before. No backache, no jumpy nerves of constipation. And what Tanlac did for me it did for my son. It gave him an appetite, strength, vitality and banished the dizziness that caused him so much suffering. He now has robust health."

Mrs. Guilbert says she and her husband have been taking Tanlac for some time. It has given them both a new lease on life. They are now enjoying the best of health and are able to do all the work of the household and the farm.

"I began to gain strength. I gained 6 pounds and color returned to my cheeks. Rheumatism vanished. Now I feel 100% better than ever before. No backache, no jumpy nerves of constipation. Good Health Requires Good Elimination

To be well, you must keep the blood stream free from impurities. If the kidneys lag, allowing body poisons to accumulate, a toxic condition is created. One is apt to feel dull, languid, tired and aching. A nagging backache is sometimes a symptom, with drowsy headaches and dizzy spells. That the kidneys are not functioning properly is often shown by burning or scanty passages of secretions.
